

▶ Chain Saws

Known for superior design, top performance and a variety of excellent features, all RedMax chain saws are comfortable, powerful and long-lasting. The well-designed top handle and high cutting speed result in light, compact and extremely well-balanced chain saws that make quick, accurate cuts. For added safety, all models include inertia-activated chain brakes, chain catchers, throttle interlocks, right-hand guards with easy-to-reach stop switches, grouped controls and side-access chain tensioners. Adjustable clutch-driven automatic chain oilers deliver oil only when the chain is moving. The automatic oil pump regulates the volume of oil to match the engine speed so the bar and chain are lubricated at all times. A light weight pole saw unit is also available, featuring a professional-length bar with the patented Strato-Charged® engine technology which can also be converted into a long or short-blade hedge trimmer.

▼ Model GZ3500T (top) and GZ380 (bottom) Features & Benefits*

Most RedMax chain saw models have a 1 year commercial and lifetime ignition coil warranty.

Most chain saw models feature our Strato-Charged® engine technology which reduces impact on the environment through efficient engine design, increased fuel economy and reduced emissions.

For more information see page 4.

MaxSmart carburetor compensates pressure when air cleaner is clogged.

Isolated fuel and oil tank from engine reduces vibration.

Strato-Charged® 35.2 cc engine (1.94 hp, 7.31 lbs)

Aluminum alloy bar mount with replaceable stud bolt.

MaxClear dust separation system protects engine from dust.

Super e-start reduces pulling force.

MaxLogic ignition coil achieves ideal ignition by adjusting timing with running situation.

Double mounted hand guard.

Scabbard is standard.

MaxClean air intake system.

Spring assisted Super e-start.

Purge pump.

One action choke and stop switch.

*See page 26 for full model line up and specifications. Features may vary by model.
