

▶ Edgers

RedMax edgers are light weight and efficient, yet tough enough to handle nearly any terrain. Advanced features include high torque cutting to prevent stalling, an open-face, clog-resistant guard made of sturdy aluminum (no plastic here!), vibration dampening for user comfort and extremely dependable component parts. Even the trigger is nearly unbreakable, designed and constructed to withstand even the most vigorous, extended wear and tear. RedMax straight shaft edgers deliver the best transfer of power and are used in very difficult soil or clay. The curved shaft edgers are used primarily in loose or soft soil areas where less power is needed.

Edger Features

- The high torque cutting capability eliminates stalling.
- Open-face, clog-resistant die-cast aluminum guard improves safety and performance.
- All gear cases come equipped with steel gear case protectors to prevent gear box wear.
- Extra large guide wheels with solid rubber, clog-resistant treads.

Curved Shaft

▼ HEZ2460F NEW

Displacement 25.4 cc
Power 1.14 HP
Weight 13.3 lbs

▼ HEZ2650F

Displacement 25.4 cc
Power 1.2 HP
Weight 13.6 lbs

Edger Blade (All Models)
(Part Number 521 45 30-01)

Straight Shaft

▼ HEZ2460S NEW

Displacement 23.6 cc
Power 1.14 HP
Weight 14 lbs

▼ HEZ3050S / 3060S NEW

Displacement 29.5 cc
Power 1.4 HP
Weight 15.1 lbs

Damper Shaft on "S" Models

New light weight hollow drive shaft with damper reduces vibration by approximately 20%.

All edger models feature our Strato-Charged® engine technology which reduces impact on the environment through efficient engine design, increased fuel economy and reduced emissions. For more information see page 4.
