

▶ Pole Saw & Pole Saw Extension

The light weight pole saw features a professional length bar with the patented Strato-Charged® engine technology which can also be converted into a long or short-blade hedge trimmer. The new PS-EXT3.5 pole saw extension allows you to add or remove 3' 5" of length without any tools and only adds 2 lbs. of weight to the unit.

▼ PSZ2450 / 2460S

See page 27 for bar and chain application guide.

Displacement 23.6 cc
Power 1.4 HP
Weight 11.2 lbs
Bar Lengths 12"

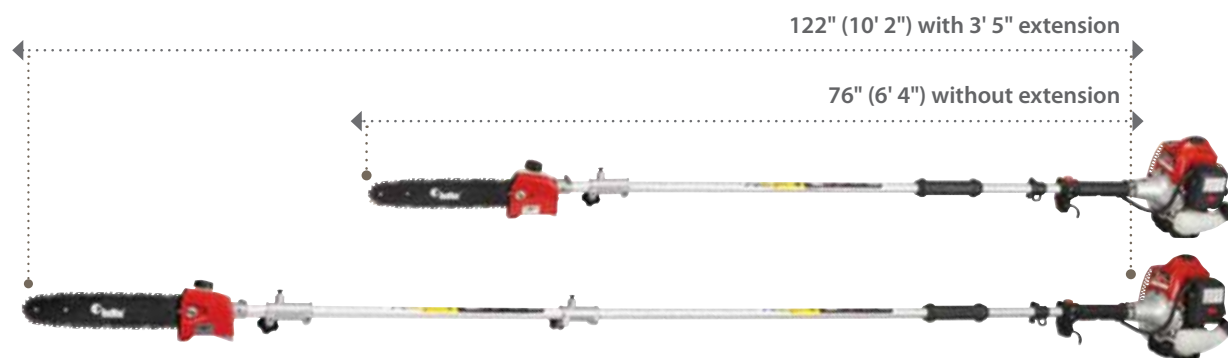

Amazing reach with 3' 5" extension

▼ PS-EXT3.5 (Part Number 966 61 91-01)

Includes: Extension joint x 2 • 3' 5" outer pipe x 1 • 3' 5" drive shaft x 1 • 4" outer pipe x 1 • 4" drive shaft x 1

¹ Without bar & chain ² Ignition coil includes lifetime warranty

▶ Protective Gear & Oil

RedMax protective gear provides superior comfort and performance in the field. MaxLife Engine Oil is specifically designed for high-RPM, lean-burning, air-cooled 2-stroke engines. Our synthetic blend oil formulation is considered a top performer amongst outdoor power equipment professionals.

▼ Safety Gear

Includes high-quality earmuffs with a noise reduction rating of 22dB(A), an optional mesh visor attachment and a safety helmet with both the earmuffs and mesh visor attached.

(Helmet System: Part Number 574 14 48-01)

(Visor: Part Number 574 14 43-01)

(Headset: Part Number 574 14 44-01)

▼ Safety Glasses

Meets all applicable ANSI Z87.1-2003 performance and safety standards. All lenses filter out 99.9% of all harmful UV radiation. Available in gray or mirror lens.

(Gray: Part Number 574 15 80-01)

(Mirror: Part Number 574 15 81-01)

▼ Baseball Cap

Our black, low profile cap features an attractive design, quality construction and adjustable Velcro band.

(Part Number 574 10 57-01)

▼ MaxLife Engine Oil

MaxLife Engine Oil contains special additives to reduce piston, ring groove, and crankcase deposits. It also reduces the fuel oxidation that causes varnish, gum and stale fuel. Even exhaust port and spark arrestor screen blocking is minimized. As a result, engines run cooler, cleaner and with greater efficiency. This oil has a very low ash content, which reduces engine deposits and exhaust port plugging. It also contains fuel stabilizers that double fuel life.

MaxLife engine oil is available in seven sizes: 2.6 ounces, 5.2 ounces, 6.4 ounces, 13 ounces, 1 gallon, 5 gallon pail and 55 gallon drum. RedMax bar and chain oils are also available in quart and gallon sizes that are specially formulated with dispersers and tacifiers to maximize lubricity and reduce heat buildup from chain friction. Specially formulated for high-RPM Pro Series chain saws, they reduce the high-speed throw-off of oil and extend the bar and chain life.

*MaxLife engine oil is fully compatible with EPA and C.A.R.B. requirements and exceeds the highest ISO-LEGD and JASO M345/FD 2-stroke oil requirements. It is certified by and registered with JASO for use in ALL air-cooled, 2-stroke, outdoor power equipment engines.
